VetNova launches the new ADIVA® Gastric

The ADIVA® family grows and now offers a solution for gastric protection with the new ADIVA® Gastric, a highly palatable complementary food in chews for dogs and cats.

ADIVA® Gastric has a complete formula with mucoprotective action that favors the correction of heartburn and contributes to the reduction of gastric discomfort.

It is available in two presentations: ADIVA® Gastric Small and ADIVA® Medium&Large, covering the needs of all cats and dogs.

For more information visit the VetNova website www.vetnova.net or contact vetnova@vetnova.net
